Experience

Pragmatech Education and development Center   February 2021 – September 2021
Junior Front-end Developer - Mentor   *Baku, Azerbaijan*

- Mentored a cohort of 110 students enrolled in the Front-end Developer course.
- Conducted thorough assessments of students' homework assignments.
- Facilitated additional sessions to clarify complex topics and provide in-depth explanations.
- Actively contributed to students' GitHub projects by identifying and documenting issues, fostering practical learning.
- Worked on several small-scale front-end development projects during the course, gaining practical experience in applying web development concepts.

BEU ICT Lab   October 2019 – September 2020
Junior Front End Developer Intern   *Baku, Azerbaijan*

- Collaborated as a member of the development team to create the front-end of the ICT Lab's website.
- Our primary focus was to ensure the website's responsiveness and adhere to SEO best practices.
- I actively contributed to the development and optimization of the website.

Projects

Elle - Social Media | *HTML, CSS, Tailwind, JavaScript, Next/React, API, Firebase*   January 2024

- I spearheaded the development of Elle, a dynamic social media application, leveraging my expertise in HTML, CSS, and Tailwind for seamless front-end design
- The app's robust functionality was achieved through the use of Next.js and React, employing Firebase for real-time data management.
- Implementing React Hooks, state, and props, I ensured an efficient and responsive user experience.
- Additionally, I integrated Firestore to optimize data storage and retrieval.

Book Library Website | *HTML, CSS, Bootstrap, JavaScript, Firebase, jQuery, API*   April 2023

- I utilized HTML, CSS, and Bootstrap for creating an appealing and responsive user interface.
- JavaScript and jQuery powered our website with dynamic and interactive functionalities, including a Slick Slider for smooth content presentation.
- Firebase was employed for backend operations, such as managing user data, comments, and book information, ensuring real-time updates.
- LocalStorage API was integrated to enhance the user experience by allowing users to save their favorite books locally.

Technical Skills
